

October 14, 2009

Dear Valued Customers:

With 2009 winding down we are pleased to supply you with our annual listing of early ship programs. These programs allow you to take delivery of the product early, sometimes with a discount, and take advantage of delayed billing terms.

Please take a moment to review these programs, because they may conveniently fit into your inventory needs for the upcoming year. By ordering early and having the material in stock you will alleviate any problems associated with receiving product during the spring rush.

We know that the current business climate continues to present more and more challenges; however, we hope the past year was prosperous for your business and that 2010 is even better.

Sincerely,

Jim Davern  
Owner
